A man and a woman are sitting on a snowy mountain peak. The woman is wearing a red puffy jacket, a grey beanie, and sunglasses, holding a blue bowl. The man is wearing a blue puffy jacket, a red beanie, and sunglasses, holding a grey mug. They are sitting in front of a yellow tent. To their left is a pair of yellow and black snowshoes. To their right is a small orange stove with a pot on it, a blue water bottle, and another pair of yellow and black snowshoes. The background shows a vast, snowy mountain landscape under a cloudy sky.

ENGINEERED FOR THE ADVENTURE READY

For over 25 years, Atlas has been committed to the principle that better technology delivers an enhanced outdoor experience. No two adventures are the same, and snow conditions vary according to a myriad of factors. As such, it is paramount that our engineers conduct an all-encompassing design and development process. Rounded out with rigorous testing in the gnarly terrain of the Cascades, you can rest assured that Atlas snowshoes are the epitome of thoughtful design.

BACK COUNTRY

MONTANE

If you frequently find yourself exploring the deep powder of the backcountry, you should become better acquainted with the Montane. Featuring Atlas's best-in-class tubular frame, the Reactiv™, for improved flotation and responsiveness, the Montane takes backcountry performance to new heights. Comfortable and easy to use, the all-new Montane Wrapp™ BC binding is lighter in weight and features a sleek crampon-style yoke binding helping eliminate pressure points while ensuring a secure fit. Heel and ankle strap roller buckles allow quick, easy, and intuitive access in and out of the bindings. While 19° heel lifts provide relief on ascents.

Features:

- Reactiv™ Frame
- Wrapp™ BC Binding
- All-Trac™ Crampon
- StabiLock Aft Traction
- Spring-Loaded™ Suspension
- 19° Heel Lift

Available Sizes:

Men's: 25", 30", 35"
Women's: 23", 27"

Weight/Pair:

4.46 lbs / 2.02 kgs (25")

Surface Area:

176 sq in

HELIUM-BC

Ultra-light backcountry performance. That’s what you demand, and that’s what the Atlas Helium-BC delivers. With the 23” model coming in under 3lbs per pair the Helium-BC is almost as light as the name implies. The composite Helium deck provides the feather-light foundation and features a unique louver design to shed snow more efficiently. The low-profile, tempered steel BC crampon sits lower in the frame to compliment the PackFlat™ binding and allow for a more natural rotation feel with every step. A backcountry necessity, this binding features urethane Z-straps that hold the foot securely and are field-serviceable with the included BC utility strap. As the name implies, it’s designed to pack down flat when not in use for easy and efficient packing or lashing. Adding to the grip of the BC crampon, anodized aluminum traction rails provide a secure grip when ascending, descending and traversing. When weight and space are limited, but reliability and performance can’t be, you need the Helium-BC.

- Features:**
- Helium Decking
 - PackFlat™ Binding
 - Helium BC Crampon
 - Aluminum Traction Rails
 - 19° Heel Lift

Available Sizes:
Unisex: 23”, 26”

Weight/Pair:
3.26 lbs / 1.48 kgs (26”)

Surface Area:
175 sq in

Developed to take on the steepest, most technical terrain the backcountry can impose. Offering superior mobility and durability, these snowshoes are for the true enthusiast looking to get off the grid.

NEW UPLAND

Upland is the solution for experienced backcountry snowboard enthusiasts everywhere. It's a smart and essential tool for climbing steep terrain, tight pitches and for shorter distance and building backcountry jumps. The Upland features an ultra-lightweight composite decking that allows flotation plus grip on snow, a crampon-style yoke binding with single urethane strap and set-and-forget adjustable heel, plus EZ-buckle for quick entrance and exit. The size allows for a simple storage solution for ease-of-use packability.

Features:

- Adjustable heel strap position
- Single pull-to-tight Binding
- Field repairable binding strap (repairable ski strap)
- Rockered tail
- Split board binding compatible

Available Sizes:

Unisex: 18"

Weight/Pair:

2.05-lbs / .93 kgs

Surface Area:

141 sq in

ALL-MOUNTAIN

TREELINE

The Treeline features Atlas's Spring-Loaded™ Suspension, a patented design that allows for impact absorption, natural side-to-side flex and deeper crampon penetration for an uncompromised stride. Comfort and security come standard with the Wrapp™ MTN binding which utilizes the BOA® Fit System to provide micro-adjustable, precision fit, engineered to perform in the toughest conditions. The variable forming of the aluminum Reactiv™ frame changes from a cylindrical to an elliptical shape to increase strength where the frame bears the greatest load for a stiffer, more responsive snowshoe frame. When coupled with soft, smooth Ny-tex decking the Reactiv™ frame provides ample flotation and stability in deeper snow. Hearty, reliable traction is a hallmark of our all-mountain snowshoes and the Treeline is no exception! The forefoot grip of the All-Trac™ toe crampon and the StabiLock heel cleat provide the necessary grip on varying snow conditions.

Features:

- V-Frame™
- Wrapp™ MTN Binding
- All-Trac™ Toe Crampon
- StabiLock Aft Traction
- Spring-Loaded™ Suspension
- 19° Heel Lift
- Nytex Decking

Available Sizes:

Men's: 25", 30"
Women's: 23", 27"

Weight/Pair:

4.13 lbs / 1.87 kgs (25")

Surface Area:

176 sq in

HELIUM-MTN

The next evolution in composite snowshoe technology has arrived. The Helium-MTN is an ultralight, uber, yet versatile all-mountain snowshoe that brings the tech, but not the weight. It features the new Wrapp™ MTN binding which integrates the BOA® Fit System to provide micro-adjustable, precision fit, engineered to perform in the toughest conditions. The serrated teeth of the anodized aluminum traction rails provide excellent grip in varying terrain and snow conditions while the aggressive MTN crampon with an aft tang creates 360° engagement around the foot. The louvered design of the Helium deck sheds snow while an underside aft fin keeps the snowshoes tracking straight. Designed to excel in all types of terrain, the Helium-MTN offers maximum traction and comfort to take on any winter hiking challenge.

- Features:**
- Helium Decking
 - Wrapp™ MTN Binding
 - Helium MTN Crampon
 - Aluminum Traction Rails
 - 19° Heel Lift

Available Sizes:
Unisex: 23", 26", 30"*

Weight/Pair:
3.39lbs / 1.54 kgs (26")

Surface Area:
175 sq in

*Size 30" available only in Black.

The snowshoes in the All-Mountain category are designed to be well-rounded quiverkillers. From hikes beyond the tree line in deep powder to hard pack, these snowshoes will get you to your destination with ease.

TRAIL WALKING

ACCESS

The classic tubular-frame snowshoe in our Trail Walking category, the Access shines on mellower terrain by making your strides feel as natural and effortless as possible. This is accomplished by the innovative technology behind the Access's frame and suspension system. The turned-up tail of the V-Frame rolls easily into each step for a smooth gait, while the patented Light-Ride™ Suspension allows your foot to articulate naturally and cushions impact for smooth striding on hikes that are flat or have little elevation change. For the traction needed for a stable snowshoeing experience, the Access features the Twin-Trac™ toe crampon that provides grip in all directions as well as Advanced Aft Traction which integrates the sharp-tipped heel cleat with the heel lift for deeper snow penetration. The intuitive Wrapp™ Stretch binding rounds out the design providing a comfortable and secure fit with a simple and intuitive two-buckle closure allowing for an easy entry and exit.

Features:

- V-Frame™
- Wrapp™ Stretch Binding
- Twin-Trac™ Toe Crampon
- Advance Aft Traction
- Light-Ride™ Suspension
- 19° Heel Lift
- Nytex Decking

Available Sizes:

Men's: 25", 30", 35"
Women's: 23", 27"

Weight/Pair:

4.01 lbs / 1.82 kgs (25")

Surface Area:

176 sq in

HELIUM-TRAIL

Take to the trails with Atlas’s Helium-TRAIL, an ultra-light composite snowshoe that’s certain to become your go-to for less extreme winter hikes. Also a great snowshoe for beginners, the Helium-TRAIL features an easy-climb 12 degree Heel Lift and Wrapp™ Stretch binding which provides a comfortable and secure fit with a simple and intuitive two-buckle closure allowing for an easy entry and exit. Not lacking in traction, the TRAIL crampon’s forefoot-aligned tempered steel tangs coupled with the steel traction rails provide the grip needed when trails become packed down or uneven. With a sleek design aesthetic and a reasonable price tag the Helium-TRAIL has become a favorite of winter trailblazers worldwide!

- Features:**
- Helium Decking
 - Wrapp™ Stretch Binding
 - Helium TRAIL Crampon
 - Traction Rails
 - 12° Heel Lift

Available Sizes:
 Unisex: 23”, 26”, 30”

Weight/Pair:
 3.43 lbs / 1.56 kgs (26”)

Surface Area:
 175 sq in

*Size 30” available only in Black.

For journeys on flat to rolling terrain, the Trail Walking category offers snowshoes for those looking to take on less technical trails. With the same driven engineering long- associated with Atlas, these snowshoes provide performance and reliability for winter recreation.

SPEED

RACE

This one-of-a-kind ultralight snowshoe is the top model in our Speed category and is intended for light & fast winter travel and snowshoe running. It all starts with the insanely light, yet durable 7075 aluminum used to craft the Speed V-Frame. This frame, combined with the Nytex decking creates the platform to deliver speed, stability and flotation. The Adjustable Spring-Loaded™ Suspension suspends the snowshoe close underfoot so it can move freely with its intended articulation. It's also adjustable to three different settings so you can fine tune your desired responsiveness. This innovative technology allows for impact absorption, natural side-to-side flex and deeper crampon penetration for an uncompromised stride. The Z-Speed Race binding consists of a hydrophobic strap in a Z-configuration that holds your foot comfortably and securely. The binding is also removable to allow for direct mounting of your desired footwear for the ultimate in customizable snowshoe running technology. Two handy Direct Mount Guides are included with each pair to aid in this process. All in all, the Race truly speaks to Atlas's creativity and engineering prowess and is sure to be loved by snowshoe runners everywhere.

Features:

- 7075 Speed V-Frame
- Z-Speed Race Binding
- Direct Mount Capability
- Z-Trac Crampon
- Adjustable Spring-Loaded™ Suspension
- Nytex Decking

Available Sizes:

Unisex: 22"

Weight/Pair:

2.16 lbs / 0.98 kgs (with binding)
1.72 lbs / 0.78 kgs (without binding)

Surface Area:

134 sq in

RUN

The Atlas Run snowshoe is a fan-favorite developed to provide a precision fit for snowshoe running or fast and light movement across snow-covered terrain. The Run features the low-profile Speed Helix™ binding with the BOA® Fit System to deliver a fast, effortless, precision fit every time. A compact and minimalist design, the Run comes in a unisex 22" size and is built around the light, but sturdy Speed V-Frame with smooth and soft Nytex decking for flotation. Atlas's classic Spring-Loaded™ Suspension provides for natural articulation, impact absorption, side-to-side flex and deeper crampon penetration for an uncompromised stride. Finally, the Run's Dual-Trac™ toe crampon brings the bite with aluminum teeth aligned under the forefoot for lightweight traction and stability.

Features:

- 6061 Speed V-Frame
- Speed Helix™ Binding
- Dual-Trac™ Toe Crampon
- Spring-Loaded™ Suspension
- Nytex Decking

Available Sizes:

Unisex: 22"

Weight/Pair:

2.54 lbs / 1.15 kgs

Surface Area:

134 sq in

YOUTH

SPARK

The Spark is our performance snowshoe for kids and provides the same excellent features and function as our adult snowshoes. The lightweight youth V-Frame™ provides efficient flotation in deep snow while a toe crampon and heel cleat provide the traction needed on varying snow conditions. The simple Grom binding provides a natural fit and feel with a webbing forefoot strap and silicone heel strap that hold.

Features:

- V-Frame™
- Grom Binding
- Toe Crampon
- Heel Cleat
- Fixed Toe Cord

Available Sizes: 20"

Recommended Ages: 8-12

Weight/Pair:

2.32 lbs / 1.05 kgs

Surface Area:

121 sq in

MINI

With the fun Atlas snowflake footprints left in the snow with each step, the Mini snowshoes are the perfect tools to instill a love of snowshoeing at a young age and groom the next generation of winter adventurers. The easy-to-use Grom binding delivers a comfortable, secure fit and the binding's easy to use heel strap design means parents spend less time kneeling in the snow.

Features:

- Kid's Molded V-Frame™
- Grom Binding
- Toe Crampon
- Rotating Toe Cord
- Snowflake Traction

Available Sizes: 27"

Recommended Ages: 4-8

Weight/Pair:

1.90 lbs / 0.86 kgs

Surface Area:

88 sq in

THE PERFORMANCE SNOWSHOE FOR JUNIORS

Providing the same excellent features & function as our lightweight adult Helium Series

HELIUM JR

**Integrated
Traction Rails**
w/ stainless steel traction pins

Helium JR Crampon
Lightweight & efficient steel

**Wrapp™ Jr
Binding**
Yoke-style design
for easy entry

Aft Deck Fin
keeps tracking straight
in deep snow

Louvered Deck
keeps tracking straight

Elevate your junior's winter adventures with our new Helium JR Snowshoes. Thanks to integrated traction rails with stainless steel pins and new Helium JR crampon, the Helium JR snowshoes provide steadfast grip and stability on diverse terrains. The new Wrapp™ JR Binding with Yoke-style design simplifies boot entry, ensuring a secure fit for worry-free exploration. EZ-stretch junior straps make adjustments effortless for young ones. Providing the proven excellence of our popular adult Helium Series, the Helium JR brings a new level of performance for Junior snowshoers, empowering them to conquer various terrain, ensuring they keep moving forward comfortably and confidently in the snow.

- Features:**
- Helium JR Decking
 - Wrapp™ JR Binding
 - Helium JR Toe Crampon
 - Traction Rail Pins
 - Pivot Pin Rotation Limiter

Available Sizes:
Unisex: 20"
Boot Sizing:
US 1-8

Weight/Pair:
2.10 lbs / 0.95 kgs
Surface Area:
121 sq in

TPR Straps
a secure & comfortable fit

EZ-Stretch Jr Straps
easier tightening & more comfort
(30%-40% reduction in pull force to tighten
compared to adult straps)

ACCESSORIES & KITS

DELUXE SNOWSHOE TOTE

Show your snowshoes a little love with our Deluxe Snowshoe Tote. An interior stash pouch and generous gear compartment keep your hat, gloves and valuables secure and off the ground. An integrated mesh window helps your snowshoes dry out more efficiently, so they are ready for your next winter adventure.

Features:

- Reinforced Cleat Protection
- Adjustable Backpack Straps
- Velcro Pole Carriers
- Mesh Ventilation Window
- Zip-Over Loading
- Dual Oversized Handles

Available Sizes:

Medium: 23"-27"
Large: 27"-35"

ADJUSTABLE POLES

Find your rhythm and maintain stability on the most technical terrain. The lightweight Atlas Adjustable Snowshoe Poles feature an adjustable locking mechanism that clamps securely and releases effortlessly, providing easy packability and on-the-fly adjustments.

All-Mountain 2-Piece Poles:

1 adjustment locking mechanism, 6061-T6 aluminum 2-part shaft, adjustable to 110-130 cm, EVA grip and steel flex tips.

ATLAS TOOL LESS HEEL STRAP KIT

Easy to use replacement heel straps. Compatible with most Atlas Snowshoe models using Tool-Less connection.

Includes:

- 2 Tool-Less Heel Straps
- 2 Strap Keepers
