2022 COLLECTION

BLADE OPTIC

Introducing the all-new Blade Optic Collection. Born from LINE's history of pushing freeride skiing in a new direction, the Blade Optic Collection breaks the mold of traditional metal-laminate ski design, pulling notes from two award-winning LINE Skis, the Vision and the Blade. Fusing the intuitive freeride capabilities of the Vision's chassis, with the technology and power found in the Blade's Gas Pedal Metal™ construction, the Blade Optic Collection was created for pedal to the metal ripping from the firmest of corduroy to the deepest of pow. Set your sights down the mountain, kick it into overdrive, and experience freeride through a new lens on the Blade Optic Collection.

VISION COLLECTION

Created With THC Construction: Before your mind wonders anywhere else, THC stands for Triple Hybrid Construction, and this is some serious tech. A mixture of three different composite laminates of Carbon, Fiberglass, and Aramid are laid on top of the core. These materials resonate at different frequencies, allowing the Vision Collection to feel insanely lightweight, while maintaining a damp and stable feel. In other words, THC really mellows out the harsh vibes that you'd get in an ordinary lightweight ski.

VISION 118

A2203009

AVAILABLE DATE

SIZES 175, 183, 189

Overview: A favorite among our Freeride Team, the LINE Vision 118 is your ticket to ride on days when the storms are rolling and the snow keeps flying. With an ample waist width and a lightweight core reinforced with THC Technology, the Vision 118 can blast, arc, and surf the deepest of the deep without making your legs feel like lead. Drop-in on this incredibly lightweight freeride ski and prepare to see the light.

PESCADO

A2203001

AVAILABLE DATE

SIZES 180

Overview: The best powder ski on earth. Simple as that. Thanks to a swallowtail design, soft flex, and a massive shovel, the LINE Pescado floats through deep snow like a dream. A directional back-mounted stance allows the ski's tail to sink in deeper snow, thus raising the tip and giving you more control through the deepest of the deep, while the same concept allows the Pescado to carve groomers exceptionally well. Pick up the Pescado and experience one of the most innovative, unique, and insanely fun powder skis on the market.
