

ACCESS FOR ALL

Our new Access For All campaign is geared toward ensuring that more backcountry users have better access this coming winter and beyond. The mission of the BCA Access for All campaign is to promote the growth of healthy backcountry communities by supporting several key "access partners" that support youth avalanche education, diversity, and public lands access. With Access for All, BCA is championing diversity by encouraging more people to experience the joys of the backcountry, no matter their background, ability level, or mode of travel.

We have selected Know Before You Go (KBYG), SOS Outreach, and Advocates for Multi-Use Public Lands (AMPL) as our Access for All campaign partners for the '21-'22 winter season. BCA will provide a combination of cash funding, in-kind donations, scholarships, paid internships, and staff volunteer hours to these organizations.

The Access for All initiative is a natural evolution of the ethos of access on which BCA was founded. When co-founders Bruce Edgerly ("Edge") and Bruce McGowan ("Bruno") first started the brand in 1994, their goal was to produce reliable, easy-to-use gear to access the winter backcountry, with an education program to back it all up. We're expanding that vision to support a wider array of users entering the backcountry for their first time. Please join us in supporting these partners by visiting their websites to see what they're all about.

FLOAT™

AVALANCHE AIRBAGS

STAY AFLOAT.

Our original Float avalanche airbags were designed to be light, affordable, and easy to use. They have lived up to that since 2010, as the best-selling avalanche airbags in North America. In 2022, we're making your life even easier. In addition to our Float 2.0 compressed air system, we're offering the new Float E2, our electronic airbag system that's fully rechargeable and approved for airline travel. With the Float E2, it's possible to perform multiple deployments in the field—or in your garage.

We're not advocating getting involved in multiple avalanches—or even one, for that matter. But we've always been advocates of regularly practicing with your equipment. And we're all human. Even us “experts” at BCA have inadvertent deployments once in a while. It's nice to have backup so you don't have to call it a day after a mistake.

FLOAT

E2
PACKS

NONSTOP TRAVEL TO ALL DESTINATIONS

BCA's new Float E2 avalanche airbag packs use an Alpride E2 supercapacitor system to store energy that powers the compressor upon deployment. Supercapacitors store and release energy based on electromechanical properties rather than a chemical reaction like in rechargeable batteries. This makes supercapacitor performance much more reliable in cold temperatures. For the same reason, the energy stored in a supercapacitor releases faster when activated for deployment.

The new E2 engine is 40 percent smaller and 25 percent lighter than the existing Alpride E1 system, with a 162-liter airbag. Like the E1, the E2 is TSA-approved for hassle-free airline travel. While the E2 system makes it easy to travel by air, our innovative Side Stash pocket and Back Stash zip make it easier to travel on snow —without stopping to hydrate, swap hat/gloves/eyewear, or even skins— just rip 'em, stash 'em and go!

Designed for close-in “slackcountry” riding, this is our slimmed-down Float E2 airbag pack. All the same features as the Float E2-35, but 10 liters less volume, lower profile, and therefore no compression straps needed.

FLOAT E2 25L S/M

Pack Volume	1,281 cubic inches / 21 liters (with system)
Weight	5.869 lb / 2,662 g (with E2 system)
	3.354 lb / 1,521 g (without E2 system)
Materials	PU Coated Nylon 420d Ripstop
	PU Coated Nylon 210d Double Ripstop
	Lining -100d Robic Dynatec WR Pux2
Zippers	YKK with DWR coating
Torso Size	15" - 18" / 38.1 - 45.7 cm
Color	Tan, Moss Green, Black
Warranty	3-year limited

FLOAT E2 25L M/L

Pack Volume	1,525 cubic inches / 25 liters (with system)
Weight	5.971 lb / 2,708 g (with E2 system)
	3.642 lb / 1,651 g (without E2 system)
Materials	PU Coated Nylon 420d Ripstop
	PU Coated Nylon 210d Double Ripstop
	Lining -100d Robic Dynatec WR Pux2
Zippers	YKK with DWR coating
Torso Size	17" - 21" / 43.1 - 53.3 cm
Color	Tan, Moss Green, Black
Warranty	3-year limited

AA BATTERIES FOR ADDITIONAL DEPLOYMENTS.

In addition to the supercapacitor storage, you can install two AA batteries to allow for additional deployments in the field. The batteries also help keep the supercapacitors at full charge when not in use.

- AA alkaline batteries allow for one additional deployment and is capable of keeping the system charged for up to three months of normal use.
- AA lithium batteries allow for three additional deployments and is capable of keeping the system charged for up to five months of normal use.

See the Float E2 user manual for more information.

Our full-fledged E2 airbag pack with the whole gamut of features including our waterproof coated nylon, Side Stash pocket, Back Stash zip, curved side access zip, removable ski/snowboard/compression straps, hip belt pocket, "cooling fin" backpanel ventilation, and dedicated safety tools pocket.

FLOAT E2 35L S/M

Pack Volume	1,891 cubic inches / 31 liters (with system)
Weight	6.157 lb / 2,792 g (with E2 system)
	3.642 lb / 1,651 g (without E2 system)
Materials	PU Coated Nylon 420d Ripstop
	PU Coated Nylon 210d Double Ripstop
	Lining -100d Robic Dynatec WR Pux2
Zippers	YKK with DWR coating
Torso Size	15" - 18" / 38.1 - 45.7 cm
Color	Tan, Moss Green, Black
Warranty	3-year limited

FLOAT E2 35L M/L

Pack Volume	2,196 cubic inches / 36 liters (with system)
Weight	6.267 lbs / 2,842 g (with E2 system)
	3.752 lb / 1,701 g (without E2 system)
Materials	PU Coated Nylon 420d Ripstop
	PU Coated Nylon 210d Double Ripstop
	Lining -100d Robic Dynatec WR Pux2
Zippers	YKK with DWR coating
Torso Size	17" - 21" / 43.1 - 53.3 cm
Color	Tan, Moss Green, Black
Warranty	3-year limited

FLOAT™ 2.0 PACKS

LIGHT, AFFORDABLE, EASY TO REFILL.

FLOAT 12

Our low volume, low profile Float 2.0 pack for heli/cat/out-of-bounds riding, and snowmobiling. Optimized for small-to-medium torso lengths.

Pack Volume	732 cubic inches / 12 liters (with system)
Weight	6.0 lb / 2,700 g (full system with full cylinder)
	4.7 lb / 2,142 g (full system without cylinder)
	3.3 lb / 1,480 g (pack only)
Materials	330 denier mini ripstop nylon w/ PU coating (main)
	420 denier oxford nylon w/ PU coating (high wear areas)
	200 denier polyester (lining)
Zippers	YKK w/ DWR coating
Torso Size	17.5" - 19.5" / 44.4 - 49.5 cm
Color	Black/Red
Warranty	3-year limited

FLOAT 22

Our medium-sized Float 2.0 pack for close-in backcountry riding.

Pack Volume	1,342 cubic inches / 22 liters (with system)
Weight	6.1 lb / 2,780 g (full system with full cylinder)
	4.9 lb / 2,222 g (full system without cylinder)
	3.4 lb / 1,560 g (pack only)
Materials	330 denier mini ripstop nylon w/ PU coating (main)
	420 denier oxford nylon w/ PU coating (high wear areas)
	200 denier polyester (lining)
Zippers	YKK w/ DWR coating
Torso Size	17" - 20" / 43.1 - 50.8 cm
Color	Black/Orange, Lime
Warranty	3-year limited

FLOAT 32

Our full-featured pack for dedicated backcountry junkies carrying all the essentials.

Pack Volume	1,952 cubic inches / 32 liters (with system)
Weight	6.4 lb / 2,942 g (full system with full cylinder)
	5.2 lb / 2,366 g (full system without cylinder)
	3.8 lb / 1,704 g (pack only)
Materials	330 denier mini ripstop nylon w/ PU coating (main)
	420 denier oxford nylon w/ PU coating (high wear areas)
	200 denier polyester (lining)
Zippers	YKK w/ DWR coating
Torso Size	17.5" - 20.5" / 44.4 - 52.1 cm
Color	Black/Lime, Red
Warranty	3-year limited

FLOAT 42

For pros, ski patrollers, guides, and those prepared for long days or overnights.

Pack Volume	2,563 cubic inches / 42 liters (with system)
Weight	7.1 lb / 3,215 g (full system with full cylinder)
	5.9 lb / 2,658 g (full system without cylinder)
	4.4 lb / 1,998 g (pack only)
Materials	210 denier mini ripstop nylon w/ PU coating (main)
	420 denier oxford nylon w/ PU coating (high wear areas)
	200 denier polyester (lining)
Zippers	YKK w/ DWR coating
Torso Size	18" - 21" / 45.7 - 53.3 cm
Color	Black/Red
Warranty	3-year limited

FLOAT 2.0 AIR CYLINDER

The refillable Float compressed air cylinder is the power and driving force behind our Float system. When the Float trigger is pulled, it activates the release of 3,000 psi (207 bar) of compressed air, inflating the airbag. Always make sure your cylinder is full and connected correctly before heading out. Can be purchased full or empty. **Only compatible with Float 2.0 systems. Sold separately.**

Weight	1.3 lb / 594 g (full cylinder)
	1.2 lb / 500 g (empty cylinder)
Certifications	DOT, TC, and TUV certified

CONSUMER REFILL KIT

Additional kit. Comes standard with each Float cylinder purchase.

Includes:

- 5/32 Allen wrench
- Toothpick
- 5 small O-rings
- 2 valve-to-tank O-rings
- High-vacuum grease

REFILL CENTER STOCK KIT

Includes:

- 100 small O-rings
- 100 refill stickers
- 10 valve-to-tank O-rings
- Container of high-vacuum grease

TRACKER™

AVALANCHE TRANSCIVERS

**SIMPLICITY IS FAST.
PRACTICE IS FASTER.**

Saving lives is what we do best. We invented the digital multi-antenna avalanche transceiver, and now we're making them even more durable than ever before. Our Tracker avalanche transceivers are the most widely used in North America—with a reputation worldwide as the industry benchmark in ease-of-use and simplicity. Tracker4 upholds the Tracker tradition with an ergonomic, bombproof case, and big new display for workhorses tough on their gear.

TRACKER FEATURES CHART	TRACKER4	TRACKER3+	TRACKER S
THREE ANTENNA	●	●	●
TEMPERATURE RESISTANT LED DISPLAY	●	●	●
MULTIPLE BURIAL INDICATOR	●	●	●
CLOSE PROXIMITY INDICATOR	●	●	●
AUTO REVERT MODE	●	●	●

SIGNAL SUPPRESSION MODE	●	●	●
MOTION-SENSING AUTO REVERT	●	●	
UPDATABLE SOFTWARE	●	●	

TRACKER4

BCA'S WORKHORSE BEACON

Tracker avalanche transceivers have long been the fastest, easiest-to-use beacons in the industry. T4 just took it up a notch, with a rubberized overmolded case, larger LED display and the same Tracker interface that make it virtually impossible not to find your companion. Signal suppression and Big Picture modes for no-nonsense, multiple-victim searching. Motion-sensing auto revert-to-transmit mode. USB-C port for downloadable software updates. All transceivers include a harness and batteries. U.S. patent numbers: 6,167,249 & 6,484,021, B.

Weight	7.6 oz / 215 g including batteries, not harness
Dimensions	4.7" x 3.0" x 1.0" / 12 cm x 7.5 cm x 2.6 cm
Frequency	457 kHz
Power supply	Three AAA alkaline batteries
Warranty	5-year limited

TRACKER3+

TRACKER'S LEGENDARY EASE-OF-USE IN A SMALLER PACKAGE.

The Tracker3+ has Tracker's renowned ease of use and instantaneous real-time display. Designed to be "pocket friendly," The T3+ is our smallest, thinnest Tracker. Signal suppression and Big Picture modes for no-nonsense, multiple-victim searching. Motion-sensing auto revert-to-transmit mode. Mini USB port for downloadable software updates. All transceivers include a harness and batteries. U.S. patent numbers: 6,167,249 & 6,484,021, B.

Weight	7.6 oz / 215 g including batteries, not harness
Dimensions	4.6" x 2.8" x 0.9" / 11.6 cm x 7.1 cm x 2.3 cm
Frequency	457 kHz
Power supply	Three AAA alkaline batteries
Warranty	5-year limited

TRACKER S

OUR STREAMLINED, MORE AFFORDABLE VERSION OF TRACKER3+.

The Tracker S features all the performance of T3+ and T4, without the luxuries of motion-sensing and updatable software. All transceivers include a harness and batteries. U.S. patent numbers: 6,167,249 & 6,484,021, B.

Weight	7.2 oz / 205 g including batteries, not harness
Dimensions	4.5" x 2.8" x 1.0" / 11.5 cm x 7.1 cm x 2.6 cm
Frequency	457 kHz
Power supply	Three AAA alkaline batteries
Warranty	5-year limited

TRACKER PACKAGES

Bundling the essentials makes it a slam-dunk to gear up for your first trip in the backcountry.

T4 RESCUE PACKAGE

Our high-end rescue package for all backcountry riders. Includes a Tracker4 avalanche beacon, Stealth 300 probe, and Dozer 1T shovel.

T S RESCUE PACKAGE

Make your dollars go farther with our streamlined value package. Includes a Tracker S avalanche beacon, Stealth 270 probe, and Dozer 1T shovel.

BC Link™

GROUP COMMUNICATION NEVER ALONE.

Maximize your line—and maximize your safety. Find separated friends, communicate plans, stick your line, and share observations in real-time with the BC Link group communication system. The Smart Mic user interface is located at your fingertips—no need to change settings, no need to dig the radio from your pack. The battery lasts for several days without recharging, even in cold temps.

BC LINK 2.0

More durable, more weather resistant, and more style. Smart Mic grill is impervious to packing with snow. On/off/channel selection dial switch is protected from inadvertent channel changing. Stylish industrial design!

- Durable cord/base unit connection
- New battery power percentage display
- New factory reset option on channel pre-sets
- Maximum battery life: up to 40 hours in standby mode
- Average battery life: 8 hours of normal use
- Integrated 2300 mAh lithium ion battery, plus charger

Smart Mic dimensions	3.5" x 2.1" x 1.5" / 9.0 cm x 5.4 cm x 4.0 cm
Base unit dimensions	6.3" x 2.2" x 1.4" / 16 cm x 5.6 cm x 3.5 cm
Weight	11.0 oz / 312 g
Usable range	Approx. 6 miles / 9.5 km line of sight *
Maximum range	Up to 40 miles / 64 km line of sight *
Color	Black
Smart Mic Includes:	Push-to-talk button
	Channel control
	Loudspeaker
	Battery indicator
	Earphone jack
Warranty	3-year limited

BC LINK

Our wildly popular, nearly hands-free group communication system designed specifically for backcountry recreation in cold temps. For use with all backpacks, optimized for BCA Float and Stash packs. Extra batteries sold separately. Camo available in North America only.

- Maximum battery life: up to 40 hours in standby mode
- Average battery life: 8 hours of normal use
- Rechargeable/removable 2200 mAh lithium ion battery, plus charger
- Base unit can be clipped to belt or stashed inside backpack

Smart Mic dimensions	3.3" x 1.8" x 1.0" / 8.0 cm x 4.5 cm x 4.0 cm
Base unit dimensions	6.0" x 2.5" x 2.0" / 15 cm x 6.0 cm x 5.0 cm
Weight	12.0 oz / 340 g
Usable range	Approx. 6 miles / 9.5 km line of sight *
Maximum range	Up to 32 miles / 51 km line of sight *
Color	Black, Camo
Smart Mic Includes:	Push-to-talk button
	Channel control
	Loudspeaker
	Battery indicator
	Earphone jack
Warranty	3-year limited

*Camo color only available in North America

*Actual range is highly dependent on presence of obstacles, particularly ridges and large outcrops.

STEALTH

AVALANCHE PROBES

EVERY SECOND COUNTS.

BCA's updated probes feature dual-sized depth markings that are easy to see when you're performing a rescue or logging a snow profile. Pro-level aluminum models are laser-etched to prevent wear. Our Stealth Quick-Lock hardware creates a smaller bundle when folded up and eliminates loose cables that can whip you in the face when you're furiously probing.

Key depths are highlighted in orange: 1.5 m (for coarse probing), 2.5 m (for fine probing), and the bottom section (to alert shovelers that they're getting close).

BCA Stealth probes create a tight bundle when disassembled. Tapered joints enable fast reassembly.

Depth measurements are in two sizes: 5 cm increments on one side (for rescue) and 1 cm increments on the other side (for snow study).

STEALTH 240

Compact, lightweight and economical.

Weight	8.8 oz / 250 g
Extended length	94" / 240 cm
Collapsed length	15.7" / 40 cm
Diameter	0.43" / 1.1 cm
Warranty	3-year limited

STEALTH 240 CARBON

The ideal minimalist and lightweight probe.

Weight	7.6 oz / 215 g
Extended length	94" / 240 cm
Collapsed length	15.7" / 40 cm
Diameter	0.43" / 1.1 cm
Warranty	3-year limited

STEALTH 270

Our mainstream probe for recreationists.

Weight	10.4 oz / 295 g
Extended length	106" / 270 cm
Collapsed length	17.7" / 45 cm
Diameter	0.47" / 1.2 cm
Warranty	3-year limited

STEALTH 300

Our go-to probe for professionals and advanced recreationists. Laser-etched depth markings. Shorter collapsed length now fits in more packs.

Weight	11.6 oz / 330 g
Extended length	118" / 300 cm
Collapsed length	17.0" / 43 cm
Diameter	0.47" / 1.2 cm
Warranty	3-year limited

STEALTH 300 CARBON

Long enough for deep snowpacks, but lighter than aluminum.

Weight	10.2 oz / 290 g
Extended length	118" / 300 cm
Collapsed length	17.0" / 43 cm
Diameter	0.51" / 1.3 cm
Warranty	3-year limited

STEALTH 330

Our longest, burliest probe for professionals and those traveling in deep snowpacks. Laser-etched depth markings.

Weight	12.3 oz / 350 g
Extended length	130" / 330 cm
Collapsed length	18.5" / 47 cm
Diameter	0.51" / 1.3 cm
Warranty	3-year limited

DOZER™

SHOVELS

DIG LIKE A MACHINE.

Our new ovo-concave shaft, low-profile stompable blades, and wide range of cored-out handles make BCA shovels stronger, lighter, and more packable than ever before. This new line is inspired by our legendary D-2 EXT “Dozer” shovel. It’s so popular among our core followers, we’ve named our entire new line after it!

BCA was the first to create an avalanche shovel with a non-round shaft to prevent breakage while prying. We’ve taken our groundbreaking oval design and added a concave radius on both sides to make it even stronger, without adding weight. Like a high-end lacrosse stick, this shape also enables better grip in the palm, reducing slippage while shoveling. All BCA extendable models are designed to meet the UIAA standard for avalanche rescue shovels.

In hard-slab avalanches and deep burials, avalanche debris can be difficult to penetrate. With our flat “stomp edge” on the top of the blade—and heat-treated 6061 aluminum—you can penetrate just about anything, just like you can with a gardening spade.

BCA shovel blades lay flat in your pack with no protruding ferrule or “neck,” leaving more room for other backcountry essentials (and luxuries, too!). The front third of all blades offers a smooth surface for clean snowpit walls during snow stability tests.

Auto-engaging spring pins at the blade/shaft connection make for faster, hands-free assembly/deployment. Drainage holes and tightly toleranced “variable offset” sliding surfaces between the inner and outer walls of the extendable shaft prevent ice buildup for reliable deployment.

LEGEND

1/2/3	Blade size small/ medium/large
T	T - Grip handle
D	D - Grip handle
H	Hoe mode capability
UL	Ultralight

DOZER 1T

OUR MOST POPULAR SIZE: MADE FOR THE MASSES.

The updated version of our former B-1 EXT, North America's best-selling avalanche shovel. T-grip handle.

Weight	1.2 lb / 545 g
Blade dimensions	9" x 10.5" / 23 cm x 27 cm
Handle & shaft compressed length	15.25" / 38.7 cm
Handle & shaft extended length	23.25" / 59 cm
Assembled compressed length	22.25" / 57 cm
Assembled extended length	30" / 76 cm
Warranty	3-year limited

DOZER 1T-UL

OUR LIGHTEST SHOVEL, FOR THE WEIGHT-CONSCIOUS CROWD.

Cored-out blade and thinner-walled 7075 aluminum make this the lightest digging machine in our fleet. T-grip handle.

Weight	0.96 lb / 435 g
Blade dimensions	9" x 10.5" / 23 cm x 27 cm
Handle & shaft compressed length	15.25" / 38.7 cm
Handle & shaft extended length	23.25" / 59 cm
Assembled compressed length	22.25" / 57 cm
Assembled extended length	30" / 76 cm
Warranty	3-year limited

DOZER 2T

OUR MID-SIZED SHOVEL FOR PROS AND ADVANCED RECREATIONISTS.

Larger blade and longer extended length than the 1T. For those as serious about digging and snow safety as we are. T-grip handle.

Weight	1.5 lb / 680 g
Blade dimensions	9.75" x 11.5" / 25 cm x 29 cm
Handle & shaft compressed length	15.25" / 38.7 cm
Handle & shaft extended length	23.25" / 59 cm
Assembled compressed length	23.25" / 59 cm
Assembled extended length	31.25" / 79 cm
Warranty	3-year limited

DOZER 2D

OUR MID-SIZED SHOVEL WITH D-GRIP.

Same geometry as the 2T, but with D-grip for more control and comfort, especially for those wearing mittens. D-grip handle.

Weight	1.56 lb / 705 g
Blade dimensions	9.75" x 11.5" / 25 cm x 29 cm
Handle & shaft compressed length	15.75" / 40 cm
Handle & shaft extended length	23.25" / 59 cm
Assembled compressed length	24" / 61 cm
Assembled extended length	31.25" / 79 cm
Warranty	3-year limited

DOZER 2H

THE GRANDDADDY OF OUR SHOVEL LINE, WITH HOE MODE.

The updated version of our original Dozer. Hoe mode provides added efficiency when "paddling" chunks of debris without lifting. T-grip handle.

Weight	1.69 lb / 765 g
Blade dimensions	9.75" x 11.5" / 25 cm x 29 cm
Handle & shaft compressed length	15.25" / 38.7 cm
Handle & shaft extended length	23.5" / 60 cm
Assembled compressed length	23.5" / 60 cm
Assembled extended length	31.5" / 80 cm
Colors	Orange
Warranty	3-year limited

DOZER 3D

OUR WORKING SHOVEL FOR INDUSTRIAL USE—AND FOR BUILDING HUGE KICKERS.*

Move huge volumes of snow with our largest blade and D-grip handle.

* Does not fit in shovel compartment of BCA Float and Stash packs.

Weight	1.94 lb / 880 g
Blade dimensions	11" x 13.3" / 28 cm x 34 cm
Handle & shaft compressed length	15.75" / 40 cm
Handle & shaft extended length	23.25" / 59 cm
Assembled compressed length	24.75" / 63 cm
Assembled extended length	32" / 81 cm
Warranty	3-year limited

STASH™

BACKPACKS

ORGANIZED FOR ADVENTURE.

Our rugged Stash packs maintain our key Stash features: zippered back panel access (except Stash 20); carry options for ice axes, skis, and snowboards; fleece-lined goggle pockets; drain holes, and—most important—freeze-resistant Stash hydration sleeve in one shoulder strap and BC Link sleeve in the other. Now in colors to match our new line of Float E2 airbag packs.

STASH 20

Our lightest, lowest profile Stash pack.

Volume	1,220 cubic inches / 20 liters
Weight	2.6 lb / 1,170 g
Materials	210 denier rip-stop nylon
	420 denier oxford nylon
Torso Size	17.5" - 19.5" / 44.4 - 49.5 cm
Colors	Tan, Moss Green, Black
Warranty	3-year limited

STASH 30

Our best-selling, most versatile Stash pack.

Volume	1,830 cubic inches / 30 liters
Weight	3.3 lb / 1,490 g
Materials	210 denier rip-stop nylon
	420 denier oxford nylon
Torso Size	18" - 21" / 45.7 - 53.3 cm
Colors	Tan, Moss Green, Black
Warranty	3-year limited

STASH 40

Our pro/guiding/diehard Stash pack for those carrying the full arsenal of gear.

Volume	2,440 cubic inches / 40 liters
Weight	3.6 lb / 1,642 g
Materials	210 denier rip-stop nylon
	420 denier oxford nylon
Torso Size	18" - 21" / 45.7 - 53.3 cm
Colors	Brick, Black
Warranty	3-year limited

BCA CLIMBING SKINS

EASY ON, EASY OFF!

These 65% mohair/35% nylon “glueless” skins with Contour hybrid construction require minimal effort to pull apart and remove from the ski—and they stay on after repeated laps in cold weather. Compact, foldable, and rollable, so you can easily stash them in your coat pockets—or better yet, your Float E2 Side Stash pocket!

No regluing necessary: just wipe down the adhesive layer to restore tackiness. Includes flush metal tip loop and adjustable tail hook, cleaning wipes, stuff sack, and easy-to-use offset trim tool to fit these skins to your sidecut in a single swipe.

Color	Black
Available widths	115 mm 135mm
Available lengths	155-165 cm: (115 mm only) 165-175 cm 175-185 cm 185-195 cm
Warranty	3-year limited

SCEPTER

POLES

THE ULTIMATE TOOL FOR SERIOUS BACKCOUNTRY RIDING-AND SAFETY.

Our redesigned Scepters are made for high-performance touring and snow safety. Scraper Grip provides easy snow/ice scraping from topsheets, bases, and skins on the fly. Releasable straps quickly separate from your poles if you snag a tree or, worse, get caught in a slide. Utility hooks on the grip and Scepter basket enable flipping your heel risers and boot levers without bending over. EVA foam on upper shaft provides secure, lightweight chokeup grip. Now available in five fixed-length sizes for full-on resort and backcountry shredding.

SCEPTER CARBON ALUMINUM

Our stiffest adjustable pole for the high-performance crowd.

Shaft	Carbon lower, 7075 aluminum upper
Weight	10.7 oz / 303 g (single pole)
Sizes	Adjustable 105 cm - 145 cm
Color	Black
Grip	BCA Scraper Grip with releasable strap
Strap	Adjustable woven
Basket	BCA Multi-function
Tip	Carbide
Warranty	3-year limited

SCEPTER ALUMINUM

Our mainstream adjustable pole for all backcountry travels.

Shaft	7075 aluminum
Weight	10.3 oz / 293 g (single pole)
Sizes	Adjustable 105 cm - 145 cm
Color	Black/Orange
Grip	BCA Scraper Grip with releasable strap
Strap	Adjustable woven
Basket	BCA Multi-function
Tip	Carbide
Warranty	3-year limited

SCEPTER 4S

The Scepter 4s is our fully collapsible and adjustable all-season pole, designed for splitboarding and hiking.

Shaft	7075 aluminum
Weight	12 oz / 338 g (single pole)
Sizes	Adjustable 110 cm -130 cm, 43 cm collapsed
Color	Black/Orange
Grip	BCA Scraper Grip with releasable strap
Strap	Adjustable woven
Basket	BCA Multi-function
Tip	Carbide
Warranty	3-year limited

SCEPTER FIXED LENGTH

Our streamlined fixed-length sticks for backcountry or resort riding.

Shaft	7075 aluminum
Weight	9.3 oz / 263 g (single pole of 125 cm)
Sizes	115 cm, 120 cm, 125 cm, 130cm, 135 cm
Color	Black/Orange
Grip	BCA Scraper Grip with releasable strap
Strap	Adjustable woven
Basket	BCA Multi-function
Tip	Steel
Warranty	3-year limited

BC AIR™

TOURING HELMETS

KEEP YOUR LID ON.

Who says avalanches only happen on the descent? The BC Air helmet is so light and airy you can wear it on the way up and on the way down. That means no more micromanaging your headwear between laps. BC Air helmets feature ultra-lightweight in-mold construction, integrated headlamp clips, a Boa® fit system, and massive ventilation. In addition to being ASTM F2040-2018 certified for alpine skiing, the BC Air Touring Helmet is CPSC 16 CFR 1203 certified for cycling.

BC AIR

SIZE		MEASUREMENT	WEIGHT
Small	S	51 - 55 cm 20 1/2" x 21 5/8"	11.9 oz / 340 g
Medium	M	55 - 59 cm 22" x 23 1/8"	11.9 oz / 340 g
Large/X-Large	L/XL	59 - 62 cm 23 1/2" x 24 3/8"	13.5 oz / 385 g

COLORS	Black
	White
	Orange

FEATURES	Lightweight in-mold PC construction
	Highly ventilated
	Low volume packability
	Headlamp clips
	Boa® Fit Systems
	Removable earpads

CERTIFICATION	ASTM F2040-2018 certified for alpine skiing
	ECPSC 16 CFR 1203 certified for cycling

WARRANTY	3-year limited
----------	----------------

IN-MOLD CONSTRUCTION

In-mold is the premium construction for ultra-lightweight performance and is characterized by an EPS liner that is molded directly to a lightweight polycarbonate (PC) shell. The result is a construction so light you'll forget it's even there.

PASSIVE CHANNEL VENTING

Channels on the inside surface of the EPS direct air flow between your head and the helmet, removing moisture and excess heat for all-day comfort.

REMOVABLE EAR PADS

Ability to easily remove ear pads for reduced bulk while retaining the fit system.

SNOW STUDY TOOLS

ELEVATE YOUR GAME.

Many avalanche courses require their students to bring their own snow study tools. We designed ours in conjunction with North America's leading avalanche educators. The more reliable data you collect, the more reliable your decision-making will be.

AIARE BACKCOUNTRY DECISION-MAKING GUIDE

This brand new version of the AIARE "blue book" has been redesigned to fit the new Pro/Rec class format in North America. Developed by the American Institute for Avalanche Research and Education (AIARE) to meet the American Avalanche Association (A3) SWAG standards. Printed on water-resistant paper.

2 METER RULER

Folding fiberglass ruler for measuring snowpack depths and layers.

ALUMINUM CRYSTAL CARD

Includes snow grain classifications, slope angle map tool, and 1 mm and 3 mm grids for snowpack evaluations.

Dimensions	6" x 4" / 15 cm x 10 cm
------------	-------------------------

35 CM SAW

Cuts snow, ice and wood. Stainless steel blade. Glass filled nylon injection molded handle. Dual-diameter mount allows saw to be fixed to most adjustable ski poles (including Scepters) for additional length. Laser-etched centimeter markings, plus 1 mm and 3 mm grids. Molded nylon blade cover included.

Weight	6.9 oz / 195 g saw only 8.7 oz / 240 g saw with blade cover
Saw blade length	13.8" / 35 cm
Total saw length	19" / 48 cm

BCA GUIDE AMBASSADOR JOEY THOMPSON IDENTIFIES WEAK LAYERS IN A TOUCHY COLORADO SNOWPACK. PHOTO: EDGE.

SNOW STUDY KIT

Durable fabric carrying case with a variety of pockets and slots for our snow study tools.

Includes:	Slope Meter
	Polycarbonate Crystal Card
	Analog Thermometer
	Extended Column Test (ECT) Cord
	15x Magnifying Loupe

ANALOG THERMOMETER

Includes sling for hanging from ski tip when taking measurements. Calibratable for maximum precision.

Temperature range	-40 °C to 70 °C (-40 °F to 158 °F)
-------------------	---------------------------------------

SLOPE METER

Redesigned for high durability and greater versatility. Includes concave bottom for dual use as ski scraper and inclinometer. Bottom edge matches the radius of ski poles so slope meter can be placed on top when pole is lying on snow surface. Angle range: 0° - 60°.

EXTENDED COLUMN TEST CORD

A new addition to our kit, this 2 m cord has knots every 10 inches (25 cm) and two swaged aluminum teeth at the center to cut through snow and crust for extended column tests (ECT). Handles on each end provide grip while sawing.

POLYCARBONATE CRYSTAL CARD

Includes metric ruler, 2 mm grid, and beveled edge. Translucent blue and graphic-free section enable improved clarity for grain type classification.

Dimensions	6" x 4" / 15 cm x 10 cm
------------	-------------------------

15X MAGNIFYING LOUPE

More powerful than our previous model, with closed sides for wind protection.

EDUCATIONAL RESOURCES

EDUCATION + GEAR = SAVED LIVES

At BCA, we see ourselves as educators just as much as manufacturers. That's why you'll see that our website is just as rich in education as in product. Check out our LEARN pages on our website for our instructional videos on avalanche avoidance – "the backcountry basics," companion rescue, and how to use our products.

In our six-part "Send and Return" video series, you'll see our athletes setting an example for their peers: riding hard, but only according to the avalanche conditions. All BCA athletes are required to have level 1 avalanche training. In "Send and Return," you'll see them putting that to work by checking the avalanche forecast, performing trailhead and stability tests, and choosing terrain appropriate to the conditions. Look for these on our Videos page.

Our marketing slogan is "Simplicity is Fast. Practice is Faster." But that's not just marketing. We've set up over 100 BCA Beacon Training Parks at resorts and trailheads across the globe to make it easier for you to check and practice with your gear. Our website Store Locator includes a complete listing of our beacon training parks, as well as all our retailers, Float cylinder refill and exchange centers, and snowmobile dealers.

When the goal is to save lives, gear is only part of the equation. Even though we've been making the most reliable and easy-to-use avalanche gear on the planet for over 25 years, we hope you never, ever have to use it—except for practice.

EDUCATIONAL VIDEOS

Hands-on instructions on how to choose and how to use BCA safety products.

Get the gear, get the training, and get the forecast. Learn about tour planning and human factors in the backcountry. And BCA's specialty: how to beacon search, probe, and shovel.
